

### **Dario Zutel – Chairman & CEO**

Dario Zutel holds a Masters Degree in Applied Mathematics and Computer Science (MSc). He has more than 20 years experience in the management and development of turnkey projects and a talent for intercultural negotiations and business development. He also has a solid technical background and rich knowledge of the software and telecommunications industries.

Zutel co-founded WSI. As Chairman and CEO of WSI, he is responsible for strategic decisions, assessing future trends of the gaming industry, and designing the appropriate products to address these market trends. He anticipated the Company's financial needs for the development of new business opportunities in Europe and Latin America and is responsible for the operations of subsidiaries in Barcelona Buenos Aires and Israel.

Prior to founding WSI, Zutel was a co-founder and CEO of PIDC Group, which developed, integrated and provided system solutions for lotteries, race tracks and sport betting operations.

### **Ines Kreplak – VP Technology and Operations**

Ines Kreplak, a co-founder of WSI, has more than 20 years experience developing and managing turnkey systems and holds a Master Degree in Applied Mathematics and Computer Science.

Kreplak has a strong technical and operations background with extensive knowledge of command and control and online transaction processing (OLTP). She served as the company's CTO for six years and was responsible for the management of all software engineering teams worldwide and development of new company products. She has considerable experience in the design, development, integration and deployment of complete system solutions for lotteries, race tracks, sports betting, multi-channel wagering systems, M-business and E-business solutions.

### **Eric Benchimol – VP Business Development & Finance**

Eric Benchimol has a degree in Economics and Business Administration, a master in Economy and International Finances, and a post-graduate title in International Trade – all from University of Barcelona, Spain.

Mr. Benchimol joined WSI in 1996 as corporate controller, responsible for all financial reporting and controls, including feasibility analysis, control and supervision of financial and operative aspects of all company projects. He is a Member of the Board of directors and General Manager of WSI Gaming S.L. (Spanish Subsidiary).

### **Kalman Szarfman – Hardware Development and Manufacturing Manager**

Kalman Szarfman holds a MSC in Electronic Engineering and has more than 35 years experience in designing and delivering products and systems. He oversees all day-to-day operations and the ongoing operation of lottery projects worldwide.

Before joining WSI in 2000, Mr. Szarfman was Executive VP for operations in Tadiran Systems, one of Israel's leading Electronic Industries in the field of Military Communications. He was responsible for the development and production of highly reliable equipment installed and operated in many countries, including NATO members. He has spearheaded the design and production of WSI's Lottery Terminals, managing a team of Motorola engineers and developing highly robust and reliable products.

### **Xavier Ibáñez – Software Development Manager**

Xavier Ibáñez holds a Master degree in Software Engineering from the Universitat Politècnica de Catalunya in Barcelona (Spain), and has over 15 years experience in technical innovation and design. He is responsible for all new product development and testing and works closely with Szarfman and various project managers on all new deployments.

He has a solid technical background in SCADA systems (power plants control), real-time software (transactional systems), telecommunications, internet related software, security and relational databases (Oracle, SQL Server), as well as an extensive experience in project management, design and development of lottery, gaming and entertainment systems.
